Project Description:

This Rural Development investment will be used to evaluate the current water lines within the city of Mott and create a plan for needed improvements and/or replacement of broken and deteriorated lines. The current water, sewer, and wastewater systems are all original to the city and have begun having more breaks and showing signs of deterioration. After the plan is put together, they intend to apply for USDA Rural Development assistance to update all 3 systems as finances allow.

People Who Will Benefit: 721

Total Project Cost: \$30,000.00
